Welcome to your future
The Technical Trainers College in Riyadh (TTC) offers a three year Bachelor Degree in technical disciplines such as Mechanical Technology, Electronics and Electrical Technology and Information & Communication Technology. The programme offers a new approach to the training of vocational trainers.

Welcome to the TTC
Improving the training of vocational trainers is a key part of the educational reforms of the Saudi Arabian Government. To achieve this, the Technical and Vocational Training Corporation (TVTC) asked GIZ International Services (GIZ IS) to set up Technical Trainers College in the Saudi capital, Riyadh. Courses first commenced in September 2009 with an initial intake of 120 trainees. By now three batches of students have graduated from TTC. The college is accredited according to European standards and guidelines for Quality Assurance in Higher Education.
The three year programme combines the latest vocational pedagogy training with a thorough education in a chosen technical specialization. There is a 60:40 split between theoretical and practical training.
